CYQUEO
Cyber-Security Solutions

We secure over one million end-users all around Europe with professional Cyber-Security Solutions.

Mimecast Email Cloud Services in Security & Archiving: The full-featured security strategy for protection of your emails, data and employees

Cyber criminals use emails, which are still a crucial communication medium in business. In addition to email failures, new types of attacks are accompanied by financial losses, data loss, identity theft and reputational damage.

How about being protected against these IT security threats despite human error?

The Mimecast cyber resilience strategy: being able to work safely and productively anytime, anywhere.

Mimecast Cloud Security Services provide complete security: From layered protection against spam, malware, phishing- and zero-day-attacks to fast data recovery after an attack. Furthermore with **Mimecast Mailbox Continuity** you benefit from uninterrupted access to current and past emails – regardless of location or device.

mimecast®

Mimecast Cloud Archive for Email: industry's leading archive solution + GDPR-compliant

Mimecast Archive functionality sets industry standards with the industry's fastest search engine: Guaranteed search results across all devices in the *7-second Search Service Level Agreement*.
