Security Awareness Training

## Proofpoint Security Awareness Training is the leading solution for IT security awareness and training

Do you know how vulnerable your company is to cyber attacks? Cyber criminals do not target technical systems, they target your employees.

Individual behaviour becomes a success factor for the IT security of the entire organization.

What are you already doing to implement enterprise-wide IT security learning?

With Proofpoint Security Awareness Training (formerly known as Wombat Security Technologies) you improve the level of knowledge of your employees and their behaviour in dealing with cyber threats.

The methodology of continuous trainings stands for an ongoing process to reduce cyber risks for your organisation.

Get to know the unique approach of Proofpoint Security Awareness Training to get your employees ready for a digital work environment: [cyqueo.com/psat](http://cyqueo.com/psat)

The implementation of learning science principles in the education in companies is also a success factor for IT-Security learning.

From on-the-job learning to gamification, interaction and learning progress control. Well thought-out learning concepts are the key to successful IT security training approaches.
