itWatch: Wordwide leading secure device management and endpoint security – Made in Germany

itWatch GmbH

Data theft, infiltrated malicious code, access by third parties or simply lack of risk awareness: The loss of sensitive information causes serious damage. Also at standard office workplaces.

With the Endpoint Security and Data Loss Prevention portfolio from the world market leader **itWatch**, you protect your company data anytime and anywhere.

Central management and added value for granular endpoint security in IT operations with high user acceptance at the same time.

Go one step further than just isolated "buzzword solutions": A successful implementation of Endpoint Security includes the systematic identification of risk situations as well as the conception, development and implementation of company-wide security policies.

The patented itWatch solutions and modules convince with their worldwide unique selling points and meet the high requirements of intelligence services, the military and the police.

Get to know the technologically advanced Enterprise Security Portfolio of itWatch: DeviceWatch *(interfaces, ports, USB, Bluetooth etc.)*, ApplicationWatch *(application authorizations)* and many more.
